

High Pressure Ratio Compressor (HPRC)

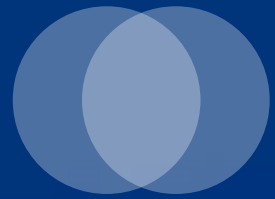

GE's innovative, super-compact, cost-efficient package – the smallest and lightest yet

Up to **50%** smaller train footprint

Up to **30%** lighter

**2 GE BUSINESSES,
ONE TEAM:**

New technology which leverages GE Aviation's aerodynamics expertise

Easier maintenance

Maximum operating pressure – **400 bar**

Efficiency, higher reliability and availability

Simplified installation

Pressure ratio up to **30:1**

Centrifugal compressor up to 3 sections in 1 casing
